Github Profile	https://github.com/sazibuddin/

Experiences

Software Engineer

Softzino Technologies, House no 50, ROAD 03, Sector 11, Uttara, DHAKA, BANGLADESH

July 18, 2022 - Current

- Softzino technologies is a software firm that is working on some exciting projects for some of the giant tech companies in the world. I'm working with a team who works with those technologies. PHP/Laravel, Vuejs/Nuxtjs, Docker, MySQL, MongoDB. My main responsibilities here are.. .

- Attend the project planning and sprint planning meeting and estimate the task and time.

- Write clean and understandable code to develop feature.
- Write unit tests to meet their desired.
- Standardized content with a new, responsive, mobile-first approach and strategy.
- Design frontend from scratch following the template(figma,xd).
- Develop back-end and rest API for application.

Jr. Software Engineer

Rapples limited, ROAD 10, BARIDHARA HOUSE 5, DHAKA, BANGLADESH

May 01, 2020 - Jan 31, 2022

- Rapples limited is a japan based software firm, where I was a jr. software engineer. I have worked on many projects. My main project was Bunonbakset.com which is an eCommerce platform for the web as well as a mobile app. .
- Implemented websites, and landing pages from concept through deployment.
- Standardized content with a new, responsive, mobile-first approach and strategy..
- Design frontend from scratch following the template(Figma,xd).
- Design application architecture.
- Develop back-end and rest api for application.
- Maintain bug fixing existing application.
- Deploy application on server (Digitalochen, Cpanel).

Web developer

Linkingcc, Level - 6, Sheikh Hasina Software Technology Park, Jashore-7400, BANGLADESH

May 01, 2019 - December 31, 2019

- LinkingCC is a reputed Software Company located at Jashore. I was a Web developer of LinkingCC and contribute to 10+ live projects. The most important project for me was the citizenship certificate management system.
- Understand requirement from client.
- Develop application from scratch.
- Design frontend from scratch following the template(PSD,AI).
- Maintain bug fixing existing application.
- Manage server and fixing bugs on programmed project.
